

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product name: Biomax® 5

Material No.: 620929

Application: Silage inoculant.

Supplier: Chr. Hansen Inc.
9015 West Maple Street
53214-4298 Milwaukee - WI
Phone: +1 414 607-5700

Headquarters: Chr. Hansen A/S
Boge Allé 10-12
DK-2970 Horsholm
Tel. +45 45 74 74 74

Emergency telephone: +1 414 607-5700

2. HAZARDS IDENTIFICATION

HMIS Ratings: Health: 1 Flammability: 3 Physical Hazard: 0 Pers. Prot.: E

Physical and Chemical Hazards: Small quantities: The hazardous properties of the product are considered to be limited.
Large quantities: In high concentrations, fine particles may form explosive dust/air mixtures.

Human health: Dust may irritate the eyes and the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.

Environment: The harmful effects of the product in the environment are considered to be limited.

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

3. COMPOSITION/INFORMATION ON INGREDIENTS

The product contains: bacteria.

This material is not a controlled product under Canadian WHMIS regulations.

Does not contain substances that must be indicated according to current regulations.

4. FIRST-AID MEASURES

Inhalation:	Dust inhalation: Move into fresh air and keep at rest. In case of persistent throat irritation or coughing: Seek medical attention and take along these instructions.
Skin contact:	Remove contaminated clothing immediately and wash skin with soap and water.
Eye contact:	Do not rub eye. Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open eyelids widely. If irritation persists: Seek medical attention and bring these instructions.
Ingestion:	Rinse mouth thoroughly. If uncomfortable: Get medical attention.
Most important symptoms and effects, both acute and delayed:	Dust may irritate the eyes and the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.
Indication of any immediate medical attention and special treatment needed:	Symptomatic treatment.

5. FIRE-FIGHTING MEASURES

Extinguishing media:	Use fire-extinguishing media appropriate for surrounding materials.
Specific hazards:	Potential dust explosion hazard. Fine dust dispersed in air in sufficient concentrations and in the presence of an ignition source is a potential dust explosion hazard. The explosion limits and the flash point are stated in section 9.
Protective equipment for fire-fighters:	Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	Avoid generation and spreading of dust. Avoid inhalation of dust and contact with skin and eyes. Follow precautions for safe handling described in this safety data sheet.
Environmental precautions:	Avoid discharge into drains, water courses or onto the ground.
Spill Cleanup Methods:	Use a vacuum cleaner. If not possible, moisten dust with water before it is collected with shovel, broom or the like. Dust Deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air.
Reference to other sections:	For personal protection, see section 8. For waste disposal, see section 13.

7. HANDLING AND STORAGE

Safe handling advice:	Avoid inhalation of dust and contact with skin and eyes. Observe good industrial hygiene practices.
Technical measures:	Keep the workplace clean. Avoid generation, spreading and accumulation of dust. Large quantities: Ensure appropriate exhaust and ventilation at machinery and at places where dust can be generated. Take precautionary measures against static discharges when there is a risk of dust explosion.
Technical precautions:	Local exhaust is recommended.
Technical measures for safe storage:	Risk of dust explosion: Comply with the regulations on protection against dust explosions.
Storage conditions:	Store in tightly closed original container. Store at ambient temperature conditions. For detailed information consult the PI sheet. Store in a dry place. Protect against direct sunlight.

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering measures:	Provide adequate ventilation. Use work methods which minimize dust production. The risk of inhalation of dust must be minimized as much as possible.
Dust OEL - to be used if no other OEL's	Occupational exposure limits: Dust inhalable: 10 mg/m ³ . Dust respirable: 3 mg/m ³ .
Respiratory equipment:	In case of inadequate ventilation: Use respiratory equipment with particle filter: EU: FFP3 filter [e.g. 3M 8835 mask] US: P100 filter [e.g. 3M 8293 mask] For daily use of more than 3 hours a respirator with a powered air blower should be used.
Hand protection:	Gloves are recommended for prolonged use.
Eye protection:	Use tight fitting goggles if dust is generated.
Skin protection:	No special precautions.
Hygiene measures:	Wash hands after contact.
Environmental Exposure Controls:	None.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Powder
Color:	Blue
Odor:	Faint odor
pH:	Not relevant
Melting point:	Not relevant
Boiling point:	Not relevant
Decomposition temperature:	Not relevant
Flash point:	Not relevant
Explosive properties:	Not available
Relative density:	Not available
Solubility:	Water soluble

10. STABILITY AND REACTIVITY

Reactivity	None known.
Stability:	Stable under normal temperature conditions and recommended use.

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

Possibility of hazardous reactions: None known.

Conditions to avoid: None known.

Incompatible Materials: None known.

Hazardous decomposition products: None known.

11. TOXICOLOGICAL INFORMATION

Inhalation: Dust may irritate respiratory system. Inhalation of high concentrations of dust or aerosols may cause toxic alveolitis. Symptoms like fever, coldshivering, coughing, difficulties in breathing, headache, muscle and joint pains etc. may appear 6 to 8 hours after exposure. The symptoms normally disappear completely over night without any treatment.

Skin contact: Dust has an irritating effect on moist skin.

Eye contact: Dust in the eyes will cause irritation.

Ingestion: May irritate and cause malaise.

Specific effects: Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.
The product does not contain any carcinogenic substances in amounts to be declared.

12. ECOLOGICAL INFORMATION

Ecotoxicity: The harmful effects of the product in the environment are considered to be limited.

Degradability: The product is expected to be biodegradable.

Bioaccumulative potential: Bioaccumulation: Is not expected to be bio-accumulable.

Mobility: The product is water soluble and may spread in water systems.

Other adverse effects: None known.

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

13. DISPOSAL CONSIDERATIONS

Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

14. TRANSPORT INFORMATION

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DOT).

UN number -

Air (ICAO/IATA):

Transport hazard class(es) -

Packing group -

Sea (IMDG):

Transport hazard class(es) -

Packing group -

EmS -

MFAG -

Land (TDG):

Transport hazard class(es) -

Marine pollutant (IMDG): -

Special precautions for user

None known.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not relevant.

Material Safety Data Sheet

Biomax® 5

Version: 5-CA/EN

Revision Date: 17-06-2014

15. REGULATORY INFORMATION

NFPA: Health: 1 Fire: 3 Reactivity: 0 Other: -

Workplace Hazardous Materials Information Systems (WHMIS): This product has been classified in accordance with the hazard criteria of the CPR (Controlled Product Regulations), and the MSDS contains all of the information required by the CPR.

WHMIS Class: Non-controlled.

All chemicals are listed on DSL.

EC - Labeling:

Not required.

National regulation: SOR/88-66. Controlled Products Regulations with amendments.

Revision Date: 17-06-2014

16. OTHER INFORMATION

The user must be instructed in the proper work procedure and be familiar with the contents of these instructions.

The following sections contain revisions or new statements : 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16.

Classification of the substance or mixture

The product is not classified.

Label elements

Signal Word None.

Contains: None.

Hazard statements None

Precautionary statements None

The information in this Safety Data Sheet has been obtained from current and reliable sources. However, the data is provided without warranty, express or implied, regarding its correctness or accuracy. It is the user's responsibility to determine safe conditions for use of this product and to assume liability for loss, injury, damage, or expense resulting from improper use of this product.
